

FireFox Gold Closes Over-Allotment Option For 187,500 Warrants

VANCOUVER, BC – (11 January, 2019) – FireFox Gold Corp. (“FireFox” or the “Company”) is pleased to announce that it has issued an additional 187,500 warrants of the Company (each, a “Warrant”) pursuant to the exercise of the previously announced over-allotment option granted under the agency agreement between the Company and PI Financial Corp., as sole bookrunner and lead agent, Canaccord Genuity Corp. and M Partners Inc. (collectively, the “Agents”) dated December 6, 2018. Gross proceeds raised by the Company in respect of the exercise of the Agents’ over-allotment option were \$11,250, bringing the total gross proceeds from FireFox’s initial public offering to approximately \$2,121,250. Each Warrant entitles the holder thereof to acquire, subject to adjustment in accordance with the warrant indenture governing the Warrants, one common share in the capital of the Company (each, a “Common Share”) at an exercise price of \$0.60 at any time prior to 5:00 p.m. (Vancouver time) on December 21, 2020.

The Company intends to use the net proceeds from its initial public offering (i) to fund exploration and development activities on the Mustajärvi and Jeesiö properties, (ii) to complete Phase I of the work program recommended pursuant to the technical report entitled “2018 Technical (N.I. 43-101) Report on the Mustajärvi Property” with an effective date of July 15th, 2018, an issue date of September 3, 2018 and an amended and restated date of November 23, 2018, (iii) to conduct the portions of the work program recommended pursuant to the technical report entitled “2018 Technical (N.I. 43-101) Report on the Jeesiö Property” with an effective date of April 10th, 2018, and (iv) for general and administrative purposes, option payments and working capital requirements.

On December 19, 2018, the TSX Venture Exchange (the “TSX-V”) issued a bulletin approving the listing of the Common Shares and Warrants as of market open on December 21, 2018 and immediately halting trading pending completion of closing. The Common Shares and Warrants resumed trading under the trading symbols FFOX and FFOX.WT, respectively, on December 27, 2018.

No securities regulatory authority has either approved or disapproved of the contents of this news release. The Common Shares and Warrants have not been and will not be registered under the United States Securities Act of 1933, as amended (the “U.S. Securities Act”) or any state securities laws. Accordingly, the Common Shares and Warrants may not be offered or sold within the United States unless registered under the U.S. Securities Act and applicable state securities laws or pursuant to exemptions from the registration requirements of the U.S. Securities Act and applicable state securities laws. This news release does not constitute an offer to sell or a solicitation of an offer to buy any securities of FireFox in any jurisdiction in which such offer, solicitation or sale would be unlawful.

FireFox Gold Closes Over-Allotment Option For 187,500 Warrants

About FireFox Gold Corp.

FireFox is a TSX-V listed reporting issuer in each of the provinces of Canada, other than Québec, focused entirely on gold exploration in Finland. The Company has entered into option agreements with Magnus Minerals Ltd., a private prospect generator company in Finland, through which it has options to acquire 100% interests in several projects (subject to an NSR royalty) that currently encompass approximately 104,000 hectares, that complement approximately 4,000 hectares of exploration reservations and exploration permits already held directly by the Company. In order to complete the combined options, the Company must invest \$4.0 million in exploration on the properties and make cash payments to Magnus totaling up to \$450,000 over the course of the two separate three-year option periods.

Finland is one of the top mining jurisdictions in the world as indicated by its 1st ranking in the 2017 Fraser Institute Survey of Mining Companies. Having a strong mining law and long mining tradition, Finland remains underexplored for gold. Recent exploration results in the country have highlighted its prospectivity, and FireFox is proud to have a Finland based CEO and technical team.

On behalf of the Board of Directors,

“Carl Löffberg”
Chief Executive Officer
